

Certificate Supplement

Description of the vocational education and training programme for
System scaffolder, offshore

Title of certificate in Danish

Uddannelsesbevis for **Systemstilladser offshore**

Translated title of the certificate

System scaffolder, offshore

Profile of skills and competences

A trained system scaffolder is able to participate in the planning of work, including the calculation of equipment required in relation to the practical execution of individual assignments comprising the dismantling of the scaffold and to carry out the actual assignments. In this connection, a trained system scaffolder is able to:

- participate in the erection and dismantling of scaffolds offshore, including the installation of system scaffolds and suspended scaffolds, for example girder scaffolds, and to combine steel with aluminium in a safe and secure way;

- carry out assignments with due consideration of static, structural and load-related factors applying to the erection of offshore scaffolds;

- comply with the quality and safety requirements applying to the performance of the work and to assess and evaluate his/her own work.

Range of occupations accessible to the holder of the certificate

A trained system scaffolder is able to work with the erection and dismantling of scaffolds offshore, including the installation of system scaffolds and suspended scaffolds, and with aluminium scaffolds including aluminium girders, and is able to combine steel and aluminium in a safe and secure way.

Certificate Supplement

Description of the vocational education and training programme for

System scaffolder, offshore

Duration and mode of education and training

The total duration of the education programme is 4 days

The education programme has taken place at a VET-institution which according to the resolutions of the legislation is approved by the Ministry of Education to offer and implement the education programme.

Level of certificate

The training programme is a full vocational education and training programme, equivalent to level 3 in the Isced system (Isced 1997).

Access to the next level of education/training

The education and training described in this certificate gives access to continuing and further vocational education and training in Denmark.

Name and status of the body awarding the certificate

The certificate of the education programme is issued by the VET-institution according to the regulations on the education programme laid down by law.

In pursuance of an order issued by the Danish Ministry of Education, the awarding authority is authorised to issue a certificate concerning this education and training program.

Grading scale

A "passed" scale is used on the certificate issued by the institution of training and education
