

Certificate Supplement

Description of the vocational education and training programme for
Designing paint systems according to specifications

Title of certificate in Danish

Uddannelsesbevis for **Opbygning af malingssystemer efter specifikation**

Translated title of the certificate

Designing paint systems according to specifications

Profile of skills and competences

After completed training, a holder of this certificate will be able to

1. prepare without assistance a treatment specification based on customer requirements and data sheets.
 2. use airless and airmix spraying techniques in applying one- and two-component coatings and obtain a specific layer thickness, working in compliance with current environmental and work health and safety rules and regulations.
 3. calculate the amounts of materials necessary and estimate the coating intervals necessary for various types of paint based on a knowledge of the different chemical compositions and properties of the paints.
 4. perform the necessary climate control during the treatment process and measure wet and dry film thickness.
-

Range of occupations accessible to the holder of the certificate

Holders of this certificate will typically work with the planning and application of surface treatment to larger-scale structures. They will be able to use both the airless and airmix spraying techniques in applying one- and two-component coatings, as well as estimate the coating intervals necessary for different types of paint.

Certificate Supplement

Description of the vocational education and training programme for

Designing paint systems according to specifications

Duration and mode of education and training

The total duration of the education programme is 5 days

The education programme has taken place at a VET-institution which according to the resolutions of the legislation is approved by the Ministry of Education to offer and implement the education programme.

Level of certificate

The training programme is a full vocational education and training programme, equivalent to level 3 in the Isced system (Isced 1997).

Access to the next level of education/training

The education and training described in this certificate gives access to continuing and further vocational education and training in Denmark.

Name and status of the body awarding the certificate

The certificate of the education programme is issued by the VET-institution according to the regulations on the education programme laid down by law.

In pursuance of an order issued by the Danish Ministry of Education, the awarding authority is authorised to issue a certificate concerning this education and training program.

Grading scale

A "passed" scale is used on the certificate issued by the institution of training and education
